

**Mental Health Services Act
Performance Measurement Advisory Committee (PMAC)**

Responsibilities of the PMAC

1. Review of the Mental Health Services Act performance measurement requirements and stakeholder input with regard to performance indicators and outcomes specifically pertinent to the transformational, recovery and wellness missions of the MHSA
2. Review of quality strategies and frameworks as they inform indicator selection and development, e.g., Institute of Medicine Indicators, The President's New Freedom Commission Report, Quality Chasm Series, etc.
3. Review performance indicators stipulated in State regulation/national initiatives and integrate them with MHSA indicators for state and system-wide accountability demonstration (e.g., Realignment Legislation, Decision Support 2000+, and/or Mental Health Statistic Improvement Program domains, etc).
4. Review of indicators currently in State and local use for other accountability and quality improvement needs (Federal Uniform Reporting System requirements, Realignment Legislation mandates, Medi-Cal and HIPAA requirements); adaptation and reconciliation of these indicators/measurement approaches where applicable to minimize duplication of data collection efforts
5. Consolidation of 1 through 4 above in order to inform development of an appropriate set of performance indicators for the MHSA and statewide accountability
6. Review information technology options that are able to support the various types of information capture necessary to adequately measure the performance indicators of interest
7. Recommend appropriate methods of measuring performance indicators; determine data capture feasibility and potential level of quality of resulting data for accountability and decision support purposes
8. Determine and recommend measurement strategies that maximize data collection efficiency and usefulness of resulting data for multiple purposes and multiple stakeholders
